DR·RASHEL®

Where Beauty Meets Science

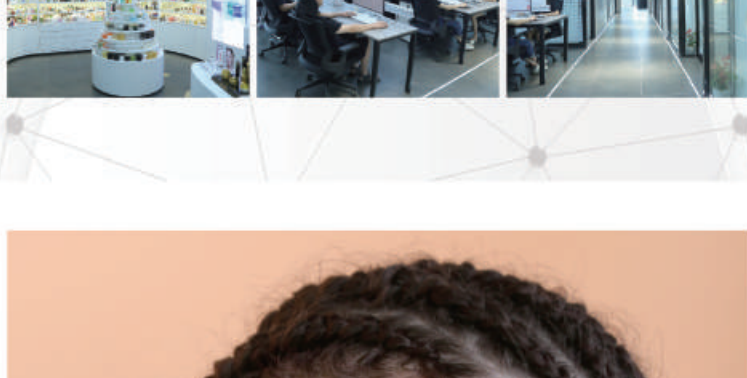

PRODUCT ADVANTAGES

Product Development Advantages

The company has a professional R & D team and advanced equipment production advantages. Through technology R & D and scientific production port management mode, we continuously output high-quality and high-quality products. Focus on R & D and production of makeup technology to empower the cosmetics industry.

Cost Advantage

The company has global suppliers and buyers of high-quality materials, using high-quality raw materials. Strictly control procurement costs to ensure better quality at the same price and lower price at the same quality. In the case of ensuring the high quality of the product, it will bring more benefits to customers.

COMPANY PROFILE

Yiwu Rashed Trading Company is one professional skin care products Supplier in Yiwu, China. Our factory is located in Guangzhou. Service objects include: independent brand sales, global agency model, professional product customization.

DR-RASHEL was founded in 2008 by Mr. BAKRI, a skin care master, with thirty years of product experience. DR-RASHEL products are spread around the world and welcomed by customers in five continents, more specifically, in the Middle East, South America, and Europe.

We export to over 100 countries, including UAE, Russia, America, Mexico, Australia, Saudi Arabia, Brazil, India and South Africa. We have ISO, GMPC, American European Union International Authoritative Double Certification Advanced R & D. Our product categories are: skin care products, make-up products, wash and care products, etc...

We are reliable supplier of the skin and body care products. We are looking forward to get more cooperation!

PRODUCTION BASE

The company has an independent production base and has reached domestic first-class level in production line, production equipment and system management. Has more than 30 high-precision production lines, all imported from South Korea and Germany, fully automated production research and development level leading the world. It brings together top international cosmetic formula elites, forms a research and development department, integrates global resources to develop scientific research strength in cosmetics, and brings more efficient and safe products.
